prefatory appeal in his morning sermon at the Madison Square Presbyterian Church yesterday: Madison Square Prosbyterian Church yesterday:
In the last few days there has come a crisis in the work for the fallen unfortunates in this city. It is a critical period that will, it seems likely, be of considerable duration, and an attempt is being made to take advantage of it to lead these unfortunate oncs, or many of them, out of their ways into a purer, better life. Already some have been turned toward this better life. Some had returned to their country homes, and for others homes had been provided, and there is noted among them an earnest, though too often a discouraged, longing for higher things. If any of you desire to aid in this work with your means—and it costs means—your contributions will be most timely.

COLONEL INGERSOLL ON "THE GODS."

A LARGE AUDIENCE HEARS HIS OPINIONS ON RELIGIOUS SUBJECTS.

The Broadway Theatre was crowded last night when Colonel Robert G. Ingersoil stepped on the stage, and with the footlights illuminating his ruddy face, and bringing out in bold relief the gold watch-chain which glistened on his manly chest—or rather just below it—began his lecture, "The Gods." Like all of Mr. Ingersoil's discourses, "The Gods." is a jumble in which wit, blasphemy and pathos are presty, will, missled. Last night the lecturer relied pretty will misgled. Last night the lecturer relied more upon the whimsicalities of his speech and the more upon the whimsicalities of his speech and the abruptness with which he propounded them to catch his audience than he did upon the arguments contained in the lecture. The gist of "The Gods" is familiar to New-York people, but here are a few of the savings with which last night's discourse was studded:

"The Church still guards the tree of knowledge and its priests refuse to allow people to eat the fruit of it."
"The priests say 'What you want is faith—educa-

in hell forever."
"It is curious, but the devil generally sympathizes with man. No devil ever gave orders to kill little children; no pestilence or famine was ever sent by devils."

Mr. Ingersoll then went on to deny the truth of the Bible, and could not see how "any sane man could read the Bible and still believe in the doctrine of inspiration."

Under Dr. Miquel's scheme all orders placed through German dealers may be taxed. Bourse speculators say that this will kill the arbitrage business, and that the crush of foreign orders will lead to the withdrawal of much capital now employed in Germany.

The situation may be thus summarized: The

On the east side of Eighth-ave, between Twenty-third and Thirty-second sts., is a line of concert halls somewhat higher in character than the ordinary Bowery "dive," but yet notoricus. All through last night these places were open and driving a trade of even more than usual magnitude. The front blinds of the liquor store proper, which look out to the street, were pulled down as usual, but as the side door swung open there burst on the ear the sound of music and the hum of many voices. The big concert room, as always, is in the rear of the store. On the wall as one entered could be seen the placard bearing this inscription: "Sacred concert To-night." The sacred concert in one place was given by young women in short skirts, and this is a specimen of the sacred song most in vogue:

In answer, allow m to say that there is one such institution in the State, and it is located near Ridgewood, Bergen County, N. This noble institution is under the charge of and supported by the Sisters of the Order of St. Elizabeth and whatever voluntary contributions may be sent in by their friends. The aged and incurable poor, without regard to nationality or creed, are admitted free, and given all the care that experienced nurses and devoted women know how to bestow. In addition to skilful nurses in charge, there are two resident physicians within easy call; be sides, several other eminent members of the profession meet in consultation at the Home one a month. While it is probably unnecessary to say that this home for the poor and aged of the State is at present full, still, if the friends of the old man referred to make an immediate application for his admission, he will no doubt be welcome just as soon as there is a vacant bed, or room can be made for one.

This Home is beautifully located, with over 166 acres of land attached, on which fruits and vegetables are raised for the sole use of the immates.

BRITISH INTEREST IN THE WILSON BILL.

From The London Standard.

It will be the fault of English enterprise and industry if we derive no benefit from the reform of the United States customs teriff; and the progress of the bil through the legislative chambers will be watched with a not unkindly interest. And we may assuredly appland the vigor with which the Chairman of the Ways and Means Committee has been denouncing the bind selfishness of the McKinley tariff, that labyrinthine system of class taxation, to quote Mr. Wilson's phrase, which was the outcome of the surrender of the taxing power to a few great monopolies. If the McKinley tariff damaged American inbor by putting an intolerable burden on the consumer, and by restricting the market for the produce of that labor, it also dealt market for the produce of that labor, it also dealt market for the produce of that labor, it also dealt ordinally welcome a reversion to an agnesser and more reasonable policy, without inquiring too narmore reasonable policy, without inquiring too nar-

FOR PARTY REORGANIZATION

A COMMITTEE APPOINTED TO EXAMINE THE

XITH DISTRICT REPUBLICANS ACT.

PHILADELPHIA PLAN. A special conference of the Republicans of the XIth Assembly District, to discuss the matter of party reorganization, was held at Mott Memorial Hall, No. 6t Madison-ave., on Saturday evening. It was exceptionally interesting. Job E. Hedges, member of the County Executive Committee, declared just before adjournment that it was one of the most important and instructive meetings of the kind that he had ever seen in the district, and in this declaration he seemed to reflect the sentiment of all present. The attendance indicated clearly that the question of reorganizing the Republican forces in this county has aroused the rank oughly in earnest on the subject.

The meeting was entirely informal. A call was

circulated in the district for two or three days pre vious to the meeting among members of the party who want to see the present organization made more effective. Such men as Dr. D. B. St. John Room, James B. Townsend, secretary of the Republican State League; Henry Birreil, of the American Book Concern; A. A. Hill, Editor of The American Press Association; W. J. Davis, Dr. L. L. Seaman, William Eldman, Fleming Tuckerman, Coates, John N. Drake, Colonel H. M. Gaylord, Harold C. Bullard, A. B. Roberts, president of the Colored Republican Association of the district; H. S. Tenney, F. P. Church, of "The Army and Navy Gazette"; Charles N. Filat, Alexander Harvey, Ervin Wardman, Louis C, Taylor, C, C, Clute, Frank L. Montague, Thomas Dixon, Charles W. Anderson, William Griffith, D. Leary, of the Southern Express; Captain Thomas C. Tryon, John E. orn Express, Capitain Thomas C. Tryon, John E. Milholland, assistant secretary of the Republican National Committee; G. L. Hens, the architect; James A. Smith, Samuel Moran, president of the Moran Association; A. R. Williams, Henry M. Stegman, L. Davis, ex-Alderman James G. Memuray, Gilber, R. Hawes, Henry Lakkins, Buchanan Carter, Robert Brykenridge, Winfred Thompson, William Hubbell, he Rev. Thomas J. Ducey, William Gladstone, Peter Flint and Dr. P. H. Murphy.

Buchaban Calter, robert of the Rev. Thomas J. Processon, William Biobell, the Rev. Thomas J. Ducey, William Gladstone, Peter Flint and Dr. P. M. Murphy.

Mr. Townsend called the meeting to order, Mr. Hawes was elected chairman. He said, in substance, that the object of the meeting was both schercal and specific—general in that the whole question of reorganization was open for discussion, but, in view of the fact that it was well understood that the County Committee on Reorganization would report in favor of the Philadelphia plan, debate on that method would be more pertinent. In accordance with the chairmen's suggestion, the Philadelphia plan was taken up and discussed at length by R. W. G. Willing, of the City Club, P. Cornelius Doody, formerly of the United Labor Party, and Louis Cohen, at one time 2 an active worker in the County Democracy. These men were present by invitation. Mr. Cohen gave his experience with the Philadelphia plan. So did Mr. Doody, Mr. Cohen had little faith in it. The County Democracy, he said, had never been able to carry it out, it was a shem with that body. Mr. Doody said that in the Henry George movement the plan had worked most successfully, and he was in favor of the Republicans of New-York adopting it. Others who took part in the discussion were Mr. Hedgest, Mr. Short, Dr. P. H. Murphy, Mr. Townsend, Mr. Cowing and Mr. Milhelland.

It was finely decided to appoint a special committee to vicit Paladelphia, examine the practical workings of the system there, and report to a subsequent reeting in the district. Dr. Roosa, Mr. Bullard, Mr. Short, Mr. Townsend, Mr. Rarrell and Mr. Milholland were chosen as the committee. Another committee was appointed to ascertain the zentiment of the party in the district on this

THE INOUEST TO BE HELD TO-MORROW. MANY PEOPLE VISIT THE SCENE OF THE DYNA

MITE EXPLOSION AT ARMONK. A large number of people dynamite explosion of Saturday near the tunnel being cut through the hills at Armonk by the New-York Department of Public Works. They were preceded by Coroner Drews, of Mount Vernon, who, after viewing what was left of Rizzo Rosario, an Italian, forty-five years old, who was blown to pieces, adjourned an investigation until Tuesday. It is understood that the explosion was caused by Rosario striking a fifty-pound box of dynamite too forcibly in his efforts to open it.

James Tracy, twenty-one years old, of Yonkers dames Tracy, twenty-one years old, of tonkers was about one hundred feet away from Rosario when the explosion occurred, while a hundred feet further on were one hundred laborers at work, these men all escaped serious injury, but Tracy's right leg was broken and he was seriously injured

right leg was broken and he was seriously internally.

A son of ex-Judge McQuade, of New-York, who is general superlatendent of the work for his father, yesterday found a pociethook belonging to Resario several hundred feet from the place of the explosion. A registered letter from an Italian banker at No. 124 Mulberry-st, showed that he had an acount there.

Mr. McQuade gave orders yesterday that Tracy, the injured drillman, should receive every attention. Some half-dozen of the shovellers were the story of the shovellers were the story injured.

tion. Some half-dozen of the shoveters were shightly injured.

Although the men have been at work at the tunnel for the last two years, this is the first accident that has occurred there. The cut through the tunnel will be completed in two weeks.

MANUFACTURING FIRMS BURNED OUT. A SUNDAY MORNING FIRE AT NEWFARE CAUSES

A LOSS OF ABOUT #00,000.

Fire broke out about nine o'clock yesterday morning in the cellar of the four story brick building Nos. 46 to 54 Lawrence-st., Newark, spread rapidly to the roof, and the firemen worked for four hours before the fire was extinguished. Several firemen

were overcome by smoke and one was cut by falling glass. The building was owned by Edward Wilson, glass. The building was owned by Edward Wilson, and was damaged to the extent of \$6,500. The loss on machinery belonging to the building amounted to \$2,500. The building was occupied by a number of firms, whose aggregate losses are about \$30,000. The list of the firms and their estimated losses are as follows: Newark Purse Frame Company, \$9,000; E. O. Chase, machinist, \$6,000; Newark Nickelplate Works, \$7,000; Adam Kass, harness ornaments, \$5,500; H. Zimmerman, shirts, \$4,500; Antonia Jerrillo, fur blower, \$4,000; Bleasdale & Leck, machinists, \$4,500; Gaetano Pappa, fur blower, \$2,200; J. Howard, foundry, \$3,000; J. J. Jackson, smelter, \$2,600; Charles Fleisner, leather embosser, \$2,000; Shoeling & Co., electro-plate works, \$2,200. The losses are nearly covered by insurance.

AN OLD MAN HANGS HIMSELF

Matthew H. Cooper, almost a nonogenarian, com-mitted suicide yesterday afternoon in a fit of despondency at his home. No. 61 Clifton Place, Brooklyn, Mr. Cooper was in his ninetieth year. He occupied the third flat with his invalid wife and widowed daughter. While alone in his sleepng apartment he hanged himself with a piece of of the room. His wife was in the adjoining room at the time, but knew nothing of the occurrence. when the daughter, Mrc. Sarah Watson, returned home from Sunday-school, she found her father hanging in his room. Dr. Royce, of No. 20 Greeneare, was called in and found the aged man dead and cut down the body.

Mr. Cooper had been despondent for some time, and believed he had lived too long. He attempted to end his life in a bathroom a week ago. When found by his daughter yesterday his knees were drawn up from the floor, showing his determination to die. Mr. Cooper prired from business everal years ago.

DR. MEYER REFUSES TO TALK.

HE SPENDS A QUIET SUNDAY IN HIS QUARTERS IN THE TOMBS.

Dr. Meyer, the alleged poisoner who is now on trial for his life, passed Sunday quietly in the Tombs. His only callers were newspaper reporters and to all these he denied himself, as he has evidently decided to be absolutely uncommunicative in regard to his case. When The Tribune reporter called yesterday afternoon at the Torbus Dr. Meyer declined to be seen or answer any questions.

The accused poisoner is anything but pleased with his quarters at the Tombs. Aboth his spirits and his health seem to be affected by the confinement, but his wonderful coolness has not deserted him and he appears confident of a favorable outcome of his trial.

LOWER WAGES FOR LEHIGH VALLEY MEN.

STRIKE-COLLIERIES TO RESUME WORK. Buffalo, Dec. 19 (Special).-The wages of Lehigh Valley engineers and firemen on this division will be cut to-morrow. This is the first result of the strike. The employes on the Northern Division of the road have for years enjoyed a schedule of pay which has been the envy of nearly every road man in the service of the companies in this section.

man in the service of the companies in this section. A general order, which will be issued to-morrow, will make a decided change in the pay of some classes of men, those who remained with the company during the strike being unchanged, while the new men and those who return to the service will have to accept the reduced rate of pay. Under the order which will be promulsated to-morrow the pay of engineers and firemen on mining engines will be increased to yard pay under the new schedule. The changes will bring the pay of the men closer to that paid by other roads than ever before. The general order will not affect any of the men who remained in the service of the company during the recent trouble, but will apply to the new men who took the strikers' places, and the old men who return to work.

The general order will not affect any of the men who remained in the service of the company during the recent trouble, but will apply to the new men who took the strikers' places, and the old men who return to work.

The Engraio members of the Brotherhood of Locomotive Engineers neid a special meeting at Klocke's Hall tals afternoon, it was not called to discuss the proposed reduction in wages on the morthern division of the Lehigh Valley Rallroad, but this matter was brought up and considered. It is not thought the proposed reduction will precipitate any further trouble between the employes and the road.

"It probably came about in this way," said a prominent member of the Grievance Committee to night. "The men on this division never have made any trouble about the wages they were receiving. They always seemed perfectly satisfied and the road probably thought it could cut them without any one making a kick. The same way with the yard engineers, who are getting 30 cents an hour, or \$250 a day. There will be no trouble for the present, I am sure. Perhaps some day there will be an effort to get back the extra 5 cents an hour for the yard engineers. I do not think the firemen will do anything at present about the cut in their wages."

"Is there any chance that the proposed cut will precipitate another strike?"

"No; there will be no more strikes on the Lehigh as long as the company lives up to the agreement signed by Mr. Voorhees last August, and which President Wilbur promised to respect. The only thing which would bring on another strike you back?"

"We shall wait a reasonable time and then, if they do not send for us to go back to work, we chall insist upon a positive statement whether we ware to be taken back the members of the committees which had charge of the strike."

"How will you know that they refuse to take you back?"

"We shall wait a reasonable time and then, if they do not send for us to go back to work, we chall insist upon a positive statement whether we are to be taken back the members of the com

TO CUT WAGES IN GLOVE FACTORIES. Gloversville, N. Y., Dec. 10.—The glove manufact-urers of this city have determined upon a general reduction in wages of from 15 to 49 per cent. Labor meetings are being held and the reduction will probably be fought.

WEST VIRGINIA MINERS STRIKE.

Pledmont, W. Va., Dec. 10.-The miners at the Hampshire mines, on the West Virginia Central Railroad, struck yesterday against a reduction of lo ceats a ton, demanded by the management. They were receiving fifty cents, the rate paid at George's Creek, Elk Garden and Clearfield. An effort will be made Monday to start the mines non-union. The Clements miners, on the West Virginia and Pittsburg Railroad, will resume in full Monday, the miners, who have been out two weeks, having accepted a cut of 19 cents a ton, making the rate 39 cents.

WAITING FOR THE PAPERS ON HAWAII.

A THEORY CONCERNING THE DELAY. From The New-York Sun.

The Senate's peremptory demand for all the docu-ments relating to the Hawaiian affair which have a lessued or received since March 4 1893, has given the President's dignity a shock from which it the President's dignity a shock from which is a new to need time to recover. Five days have now elapsed since the Senate sent for the Hawaliar papers, but they are not yet forthcoming. We can only explain the delay upon the theory that the reception of an order to divulge and explain the instructions given to our Minister at Honoliulu has caused a species of paralysis at the White Housand in the departments concerned. It has apparently confounded Mr. Cleveland to learn that he not the Federal Executive, Legislature and Judiciary rolled into one, and that his whims really cannot be permitted to supersede the Constitution.

SCARCELY WITH DISPATCH.

From The Rochester Post-Express.

It is stated on authority that the President is having prepared for Congress all the papers in the Hawaiian case. It is a job that may be performed with neatness, but not necessarily with dispatch. NEEDS TIME TO GET ITSELF TOGETHER.

From The Lewiston Journal. The United States Senate is taking a three days' rest to give the Administration time to get itself together as to Hawaii.

A PRECEDENT IN THE SENATE. From The Milwaukee Sentinel.

It would be outer in keeping with his views of such matters if Mr. Cleveland were to tell Congress that the letters, papers and documents of "my Special and Paramount Commissioner Blount" are the private papers of the Executive Office. That was his answer to the Senate when it last called for papers.

A LIMIT TO HIS COURAGE. From The Cincinnati Commercial Gazette.

The United States Senate having adjourned until Monday, President Cleveland will have ample time to consider his message in answer to the resucciful request for information in regard to his performances in connection with Hawaiian affairs. Mr. Cleveland may be a bold man, and he probably is; he is also stubborn, no doubt, but we doubt whether he has sufficient courage to face the American people.

AN ERUPTION WOULD BE WELCOME. From The Providence Journal.

It would no doubt be a relief to the President If Maura Los would break out into such violent eruption as to distract the attention of the inhabitants of the Sandwich Islands from all further discussion of a form of government.

GETTING READY TO HEDGE.

From The Cleveland Leader.

There is good evidence that the Democratic Administration is trying to hedge on the Hawatian question. President Cleveland's unsatisfactory treatment of the subject in his measure showed a lack of that zeal which should have characterized his utterances if he knew he was right.

FEW FRIENDS FOR THE POLICY. FEW FRIENDS FOR THE POLICY.

From The Utica Heraid.

The policy of secrecy and of monarchical preference has few friends in the Senate. The Administration mustered but three voices to oppose the call for the Hawaiian papers, and they were feeble. They exhausted themselves in pleading for delay, as the vote was unanimous on the passage of the Hoar resolution.

HE IS NOT FIGHTING UNCLE SAM. From The Philadelphia Inquirer.
Some part of President Dole's defiance of Minister
Willis is undoubtedly due to the fact that Uncle
Sam is not back of Minister Willis.

THE DUTY OF CONGRESS. From The New-York Press. It is the manifest duty of Congress to bring the usurper in the White House to his senses, and to vindicate American traditions, American principles and the American Constitution by holding him to strict accountability for any and every act which he has perpetrated or attempted in excess of the constitutional powers of the Executive.
